## Gross Weight Increase

### Cessna 182 Floatplanes

Gross Weight has always been a problem on floats ... **until now!**

Whether you need load capacity for passengers ... or just want more fuel load or more cargo, this conversion is going to keep you within your legal and insured weights.

Now available with Aerocet floats, the performance is dynamic, you can fill the float compartments with **all that extra stuff**, and once the kit is installed, your airframe is perfectly safe in all conditions.

Does requires some structural modifications.

Available in two different weight categories

# 3360

#### **IO-520 or IO-550 engine upgrades**

*Includes new wing struts: 11,850.00 Painted & Installed*

Adds 410 lbs. to your useful load!

Requires an engine upgrade to the IO-520 or IO-550 series engines, plus a Hartzell 3 blade prop.

*That's more useful load than a 185! And you get the large cabin!*

# 3210

#### **0-470 engine**

*Modified 182 struts & trimmed fairings: 8,500.00 Painted & Installed*

Adds 250 lbs. to the useful load!

Uses the original 0-470 engine ... and a Hartzell 3 blade prop for better performance values.

For all 182 details, just call the experts --- we design the

- 182 float conversions,
- seaplane engine mounts,
- structural upgrades,
- **Aerocet Float Dealer**
- **Sales and Installations**
- **We do installations !**
